Frontiers in Environmental and Water Management Conference Announcement March 19-21, 2015 Kavala, GREECE

Dear all,

We cordially invite you to the International Conference "Frontiers in Environmental and Water Management", which will take place on 19-21 March 2015, at Kavala, Greece.

The conference is organized by Eastern Macedonia and Thrace Institute of Technology (EMaTTECH) and the Center for Research and Education on Water Resources (C.R.E.W.) under the project " Utilizing Stream Waters in the Suppression of Forest Fires with the Help of New Technologies " with the acronym "Streams-2-SUPPRESS-Fires" that is funded under the EU INTERREG IV "Black Sea Basin Joint Operational Programme 2007-2013" framework.

The Conference will focus on the current developments on environmental and water management with an emphasis on innovation and new technologies to enhance its effectiveness and efficiency. It will provide an opportunity to meet scientists, decision-makers and stakeholders that will promote the cooperation in environmental and water research and management among countries from the Black Sea Basin, the Mediterranean Basin, Europe and worldwide.

Project funded by the
EUROPEAN UNION

Common borders. Common solutions.

The scope of the conference will mainly be:

- To present new innovative environmental and water management methodologies
- Introduce demonstration projects on efficient and effective environmental and water management
- Discuss recent advances in scientific research and technical development in regards to environmental and water management
- Promote international collaboration for more effective and efficient management
- To bring together scientists and practitioners from various parts of the world working on different aspects of environmental and water management

The website (www.fewm.eu) will provide information about the Conference and its related events. This information is of interest for those who intend to participate in the conference but also for all those who are interested in environmental and water management in general. Your comments and queries are welcome.

We hope to see you all at our conference

The Chairman of the Conference
Dr. George N. ZAIMES
